

Whatever the weather

Key point

What is the weather like today?

What picture or symbol means

rain?

snow?

sun?

wind?

Now work with your child

Make a weather chart together. Each day decide which symbol goes with that day's weather and stick it on your chart. Here is an example of what your chart might look like.

my weather chart

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
						

Key question

How could you extend this activity?

- You could keep the chart for longer, to see how the weather changes from one season to another.
- You could watch the weather forecast on television together, to see what symbols the weather man or woman uses.
- If you have a thermometer, you could record the temperature.

Skills used: Drawing, writing, observing, decision making, data handling.

Key:

rain 

sun 

wind 

snow
